## OUR VISION

To connect the East and the West by partnering with leading industries worldwide and offering the latest solutions to our stakeholders locally and internationally.

## OUR MISSION

To provide the highest standards of service quality and solutions to our partners through our team of highly skilled experts.

## OUR GOAL

Al Qudra Global aims to be number one worldwide in creating solutions, opportunities, and initiatives through effective partnerships in stimulating business in the region and worldwide, working to provide successful solutions for the businessmen, companies, and organizations, with high-quality standards and quick actions to satisfy all requirements.

## CEO MESSAGE

Since the establishment of AlQudra Global, we have focused on strengthening our position in the market by choosing the best and latest technologies and services and empowering the best talents at all.

AlQudra Global was incorporated in 2007, through a group of companies based in the Middle East.

Since the consolidation of relations of cooperation and international partnerships is an important cornerstone of our directions in the region in developing new tools and mechanisms for the future industry at a time when change is occurring at an unprecedented speed, AlQudra has devoted its efforts to developing mechanisms, action plans and application of the Fourth Industrial Revolution and contributing to the adoption of technology and best practices in the Middle East and the world, and adapting the tools provided by the Fourth Industrial Revolution to serve society.

AlQudra has devoted its efforts to developing mechanisms, action plans and application of the Fourth Industrial Revolution and contributing to the adoption of technology and best practices in the Middle East and the world, and adapting the tools provided by the Fourth Industrial Revolution to serve society.

AlQudra is characterized by its rapid adaptation to the needs of the market and the requirements of rapid development, through our exclusive partnerships with major international companies to represent them in the Middle East and the world. We are always looking for companies that serve the economic sector of the region, and we put in our plans to attract the latest technology and industrial production in order to spread these technical sciences, and therefore it was necessary to focus on the latest artificial intelligence technologies in the world, for example, the field of unmanned systems, military and security technological systems rescue, firefighting, and other important and sensitive systems.

Through our extensive experience in the region's market, AlQudra provides a fertile environment for international companies to enter the region with the best possibilities and the easiest way.

On the other hand, AlQudra aims to represent the specialized bodies and major companies in the region within our network of partners and relations in various countries of the world, and here AlQudra role comes as a link to stimulate the economy of the local market in the region and linking it with the latest technology in the world and facing the challenges of the future.

These factors have been the main pillar and the prominent feature of AlQudra Company's journey since its inception, which is still moving forward with its goals for the best.

## Welcoming you to AlQudra Global.

## OUR PROFESSION

[thermite@alqudra-intl.com](mailto:thermite@alqudra-intl.com)

Since AlQudra Global is the official and exclusive representative and distributor of Howe and Howe Technologies in the Middle East and in the region, our primary partnership with them is the cornerstone and main focus of the company in our Robotics – (AI) division.

Howe & Howe is a leader in advanced robotic land vehicles, built and proven for extreme conditions. With a portfolio that includes leading advanced robotic land vehicles, such as the RIPSAN® and the Thermite robotic fire-fighter, the company is ready and able to support customers wherever they need it most.

Howe & Howe Inc., a subsidiary of Textron Systems Corporation, a Textron Inc. (NYSE: TXT) company, the company announced domestic sale and delivery of its robotic fire-fighter, the Thermite RS3, to Los Angeles City Fire Department (LAFD) and many other departments.

FIREFIGHTING ROBOT

## THERMITE®

Al Qudra Global distribution and sales in the region initially started with UAE Ministry of Interior - UAE Civil Defence HQ.

Recently we have accomplished providing new users of the THERMITE to Abu Dhabi Civil Defence Authority (ADCDA) and Abu Dhabi National Oil Company (ADNOC), and many more esteemed Clients in the near future.

As an exclusive distributor, Al Qudra International provides the world's first and only Purpose-Built robotic firefighters (Thermite RS3, EV2 & EV1).

These remotely operated robotic firefighters are the most capable and reliable firefighting robots in the market.

It is characterized by endurance of geographical factors, difficult climatic conditions, high temperatures and bullets, and this is what qualified it to become within the first line of defense and to be adopted by major international bodies..

We are committed to provide after-sales services and 24/7 maintenance service.

[thermite@alqudra-intl.com](mailto:thermite@alqudra-intl.com)

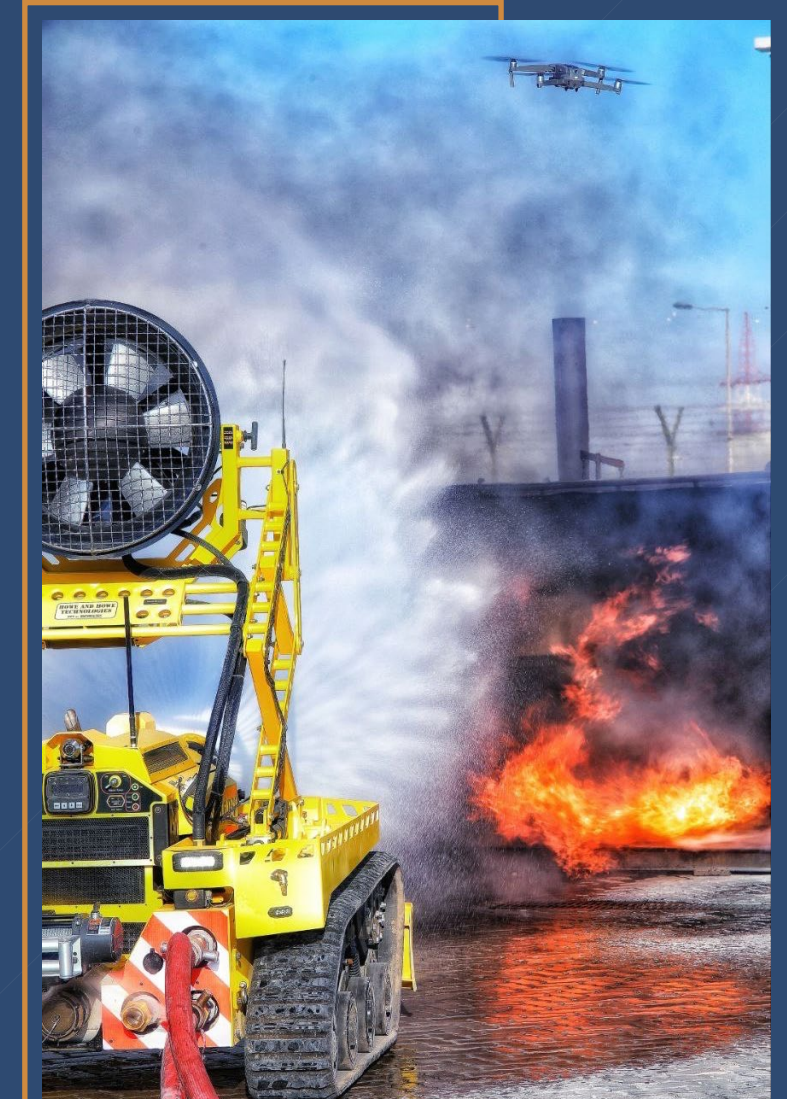

Howe & Howe Technologies has developed the robotic firefighting robot with the same strong military base that will meet the needs of firefighters, as a first responder and raise the level of security in risk areas that may be caused by natural disasters and massive fires.

Howe and Howe Technologies has formed the capabilities of the robot in firefighting operations, which helps reduce the human presence in dangerous areas and protect firefighters from advanced fires, thus reducing fire risks, preventing secondary explosions, and protecting lives and property.

The company started manufacturing and developing the Thermite in strategic cooperation with customers to manufacture robots that meet their needs and add special specifications upon their requirements.

# HOSE-PULL®

Our latest product, HOSE-PULL – the world's first and only solution for handling pipes (hoses) under pressure. The HOSE-PULL® is a strong and adaptable technical support tool that aids field workers in improving the mobility of a lengthy pressurized hose.

It has wheels that can move in all directions (omnidirectional) and can function on any terrain. By decreasing ground friction, it simplifies the process of moving the to various work areas, making it easier to handle and reducing strain on fire-fighters.

## HOSE-PULL HIGHLIGHTS

- CROSSING CAPACITY
- SIMPLIFIED MANOEUVRING
- FAST IMPLEMENTATION
- ALL PIPE SIZES

This tool is a crucial solution that helps to reduce the weight of water for enhancing the handling and working conditions in various industries.

In ARAMCO, HOSE-PULL will minimize the impact on workers' health by reducing the strain of handling heavy and lengthy water facilities, leading to better safety for personnel and teams. HOSE-PULL provides an effective solution with its robust and durable design, this tool can withstand heavy usage and guarantees long-lasting results.

## WHY ALQUDRA GLOBAL?
